

## CS-284: Introduction to Operating Systems

## PREPARATION GUIDE FOR TEST-1

- It will be a 75-minute, closed book exam
- You can use one side of an 8.5x11 page as a crib sheet  
Your crib sheet must be original (not someone else's)  
If you use a copy of another student's crib sheet, you will lose 20 points
- The weight of Test-1 on your final grade will be 250 points
- Distribution of the midterm questions will be as follows:
  - TRUE or FALSE type (25-35%)
  - Multiple Choice (20-30%)
  - Program/essay type questions (35-50%)
- In addition to the study guide given below, it is also assumed that the students already know the material taught in CSc-234

-----  
Subjects to study for Test-1
