

Lights Out!®

Lights Out® is an action packed new game that provides entertainment for the whole family. The object of the game is simple: try to make all of the lights turn off. The game will start with a random number of lights lit. Pressing the button next to a light switches the light from its current state. Beware, all lights that are vertical or horizontal from the one pressed are also switched!

For example, suppose the lights were as shown below and button one was pressed. The lights would change as shown. You have to continue to press the buttons in order to make all of the lights turn off.

Are you up to the challenge of **Lights Out!®**?
